

Technical drawing of a circular plate with two holes. The drawing shows the following dimensions:

- Two horizontal dimensions of 15 units each, indicating the distance from the center to the center of each hole.
- A vertical dimension of 29 units, indicating the distance from the center to the top edge of the plate.
- A circular dimension of $\phi 60$, indicating the diameter of the plate.
- An angle of 41.62° is shown between a radial line and a line connecting the center to the top edge of the plate.
- A small detail view of a hole is shown on the right side of the drawing.
